Manufacturer Eligibility Criteria

Spray Foam Coalition (SFC) Membership:

☐

My company is a member of the SFC.

☐

My company is not a member of the SFC.

¹ The information provided in this application shall be for the sole purpose of evaluating whether the applicant satisfies the criteria for the A.I.R. Seal of Excellence. Such information, consistent with the SFC antitrust policy, shall be held in confidence by the Spray Foam Coalition President and advisors and shall not be disclosed or shared with any other spray foam industry company.

For non-SFC members:

☐ My company maintains over 25 million pounds of manufacturing capacity in the United States. Subject to verification by the SFC President.

☐ My company has manufactured spray foam in the United States for more than 3 years (toll blending not considered manufacturing).
My company began manufacturing spray foam insulation in the United States on:_____.

☐ My company demonstrated support for spray foam industry through a concerted and ongoing commitment to the advancement of the industry.

My company's annual contribution towards industry advancement: _____

Describe your company's contribution: _____

☐ See attached document outlining my company's contribution to the industry.

☐ My company acknowledges that approval of our commitment to the industry is subject to the discretion of the SFC President.

All manufacturers:

☐ My company manufactures the B-side for the product line applying for the A.I.R. Seal of Excellence.

☐ My company operates a support team for spray foam applicators.

☐ My company includes language in sales contracts or invoices requiring applicators to meet applicable training or certification standards, such as the Center for the Polyurethanes Industry Chemical Health and Safety Training.

☐ My company imports all raw materials in compliance with all U.S. laws and regulations, including, without limitation, all relevant tariffs, duties, taxes, and trademark/copyright laws.

Note: A brand / product can cover all products listed on the code compliance report.

Brand/Product Name: _____; Code Compliance Report Number_____

Brand/Product Name: _____; Code Compliance Report Number_____

Brand/Product Name: _____; Code Compliance Report Number_____

Brand/Product Name: _____; Code Compliance Report Number_____

Brand/Product Name: _____; Code Compliance Report Number_____

Type of spray foam:

Note: The A.I.R. Seal of Excellence only applies to High Pressure and Refillable Systems.

☐ High Pressure ☐ Refillable System ☐ Low Pressure ☐ Foam in Can

Program Criteria

Safety, Stewardship, and Best Practices

- ☐ Product containers include a link or QR code to applicable training or certification standards, such as the Center for the Polyurethanes Industry Chemical Health and Safety Training.
- ☐ Product containers include a clear statement on required ventilation and respiratory protection.
- ☐ Product containers or Technical Data Sheets state the reentry and reoccupancy times, using the language outlined in the A.I.R. Seal of Excellence Program Criteria.
- ☐ Product containers display the numerical identification of the current building code approval report.
- ☐ Product containers or Technical Data Sheets, in plain language, identify the approved uses of the product.
- ☐ All Products / Brands carry a recognized low-volatile organic compounds certification.
- ☐ All Products / Brands are only sold as a complete set.

Quality

- ☐ Product has an active building code approval report, issued in accordance with ACC 377, ICC 1100, or another qualified program recognized by the most recent version of the IECC or IRC.

Products / Brands are manufactured at a site(s) that:

- ☐ are compliant with ISO 9000
- or
- ☐ Pass an annual inspection conducted by a certified code authority in the United States
- ☐ Maintain a documented QA/QC program for every batch sold under the A.I.R. Seal of Excellence, and
- ☐ Track raw material lot numbers and batch numbers for a minimum of five years.

Customer Support and Product Stewardship

☐ My company provides technical support resources for industry stakeholders during normal business hours.

My company:

☐ Seeks to return all calls within 1 business day.

☐ Displays technical support contact information prominently on the company website.

☐ Has developed a written customer complaint process for addressing spray foam installations and general complaints.

☐ My Company provides training for both new and existing industry stakeholders.

☐ My company promotes training opportunities on product labels and company websites

☐ My company ensures on-site technical support, training, and supervision are available to all customers

☐ My company provides access to building science expertise and resources to assist both industry stakeholders and customers with relevant activities and issues

I certify, as my company's spray foam insulation business unit leader or officer, that the information I provided on this application is accurate and complete.
